

## a) Robeco QI Long/Short Dynamic Duration

Pre-contractual disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

**Product name:** Robeco QI Long/Short Dynamic Duration  
**Legal entity identifier:** 213800QXP1AG42APWP21

## Environmental and/or social characteristics

### Does this financial product have a sustainable investment objective?

Yes

It will make a minimum of **sustainable investments with an environmental objective:** \_\_\_\_%

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It will make a minimum of **sustainable investments with a social objective:** \_\_\_\_%

No

It **promotes Environmental/Social (E/S) characteristics** and while it does not have as its objective a sustainable investment, it will have a minimum proportion of 40% of sustainable investments

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It promotes E/S characteristics, but **will not make any sustainable investments**

### What environmental and/or social characteristics are promoted by this financial product?

The Sub-fund has the following E/S characteristics for investments in other than sovereign bonds:

1. The Sub-fund promotes certain minimum environmental and social standards and therefore applies exclusion criteria with regards to products and business practices that Robeco believes are detrimental to society and incompatible with sustainable investment strategies.
2. The Sub-fund promotes adherence to and conducting business activities in accordance with: the United Nations Universal Declaration of Human Rights, the International Labor Organization's (ILO) labor standards, the United Nations Guiding Principles for Business and Human Rights

- (UNGPs), the United Nations Global Compact (UNGC) and the OECD Guidelines for Multinational Enterprises, by scrutinizing companies that violate these principles.
3. The Sub-fund limits investing in companies with an elevated sustainability risk based on ESG risk scores whereas all such investments require separate approval of a dedicated committee that oversees that all investments are substantiated and eligible based on a fundamental review on the sustainability risk.

The Sub-fund has the following E/S characteristics for investments in sovereign bonds:

1. The Sub-fund promotes certain minimum environmental and social standards and therefore applies exclusion criteria with regards to products and business practices that Robeco believes are detrimental to society and incompatible with sustainable investment strategies. Robeco deems investing in government bonds (federal or local) of countries where serious violations of human rights or a collapse of the governance structure take place as unsustainable. In addition, Robeco will follow applicable sanctions of the UN, EU or US to which it is subject and follows any mandatory (investment) restrictions deriving therefrom.
2. The Sub-fund promotes investment in countries with minimum average scores on the RobecoSAM Country Sustainability Ranking. The RobecoSAM Country Sustainability Ranking incorporates around 50 ESG factors such as aging, corruption, social unrest, political risks and environmental risks.
3. The Sub-fund promotes investment in countries with policies and institutional frameworks to prevent and combat corruption.

There is no reference benchmark designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-fund.

● ***What sustainability indicators are used to measure the attainment of each of the environmental or social characteristics promoted by this financial product?***

The Sub-fund has the following sustainability indicators to measure the attainment of the E/S characteristics of the bonds other than sovereign bonds:

1. The % of investments in securities that are on the Exclusion list as result of the application of the Exclusion policy.
2. The number of companies that are in violation of the ILO standards, UNGPs, UNGC or OECD Guidelines for Multinational Enterprises and therefore part of the Enhanced Engagement program.
3. The % of holdings with an elevated sustainability risk profile.

The Sub-fund has the following sustainability indicators to measure the attainment of the E/S characteristics of the sovereign bonds:

1. The % of investments in securities that are on the Exclusion list as result of the application of the Exclusion policy.
2. The minimum average score on the Country Sustainability Ranking.
3. The % of investments excluded based on the WGI Control of Corruption ranking.

● ***What are the objectives of the sustainable investments that the financial product partially intends to make and how does the sustainable investment contribute to such objectives?***

The sustainable investments aim to contribute to the UN Sustainable Development Goals, that have both social and environmental objectives. Robeco uses its proprietary SDG Framework and related SDG scores to determine which issuers constitute a sustainable investment as referred to in art 2(17) SFDR. Positive SDG scores (+1, +2, +3) are regarded as sustainable investments.

● ***How do the sustainable investments that the financial product partially intends to make, not cause significant harm to any environmental or social sustainable investment objective?***

The sustainable investments do no significant harm to any environmental or social sustainable

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

investment objective by considering a principal adverse impact and aligning with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights. In addition, sustainable investments score positively on Robeco's SDG Framework, and therefore do not cause significant harm.

— — — ***How have the indicators for adverse impacts on sustainability factors been taken into account?***

A detailed description of the incorporation of principal adverse impacts is available via Robeco's Principal Adverse Impact Statement published on the Robeco website. In this statement, Robeco sets out its approach to identifying and prioritizing principal adverse impact, and how principal adverse impacts are considered as part of Robeco's investment due diligence process and procedures relating to research and analysis, exclusions and restrictions and/or voting and engagement. For sustainable investments, the PAI indicators have been taken into account by ensuring that the investments do no significant harm to any environmental or social objective. For this purpose, many PAI indicators are either directly or indirectly included in Robeco's SDG Framework to determine whether a company has significant impacts on the SDGs related to the PAI indicators.

— — — ***How are the sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:***

The sustainable investments are aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights via both Robeco's Exclusion Policy and Robeco's SDG Framework.

Robeco's Exclusion Policy includes an explanation of how Robeco acts in accordance with the International Labor Organization (ILO) standards, United Nations Guiding Principles (UNGPs), United Nations Global Compact (UNGC) Principles and the Organization for Economic Co-operation and Development (OECD) Guidelines for Multinational Enterprises and is guided by these international treaties to assess the behavior of companies. Robeco continuously screens its investments for breaches of these principles. In case of a breach, the company will be excluded or engaged with, and is not considered a sustainable investment.

Robeco's SDG Framework screens for breaches on these principles in the final step of the framework. In this step, Robeco checks whether the company concerned has been involved in any controversies. Involvement in any controversy will result in a negative SDG score for the company, meaning it is not a sustainable investment.

***The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.***

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

***Any other sustainable investments must also not significantly harm any environmental or social objectives.***

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

## Does this financial product consider principal adverse impacts on sustainability factors?

☒ Yes, \_\_\_\_\_

The Sub-fund considers principal adverse impacts on sustainability factors as referred to in Annex 1 of the SFDR Delegated Regulation.

For credit-related investments, the following applies.

Pre-investment, the following principal adverse impacts on sustainability factors are taken into account.

- Via the applied normative and activity-based exclusions, the following PAIs are considered:
  - Exposure to companies active in the fossil fuel sector (PAI 4, Table 1)
  - Violations of the UN Global Compact Principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises (PAI 10, Table 1)
  - Activities negatively affecting biodiversity-sensitive areas (PAI 7, Table 1). The consideration of this PAI is currently restricted to applying exclusions to palm oil producing companies and for any breaches to the UNGC, UNGP and OECD Guidelines for Multinational Enterprises in relation to biodiversity.
  - Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons (PAI 14, Table 1)

Post-investment, the following principal adverse impacts on sustainability factors are taken into account.

- Via Robeco's entity engagement program, the following PAIs are considered:
  - All indicators related to Climate and other environment-related indicators (PAI 1-13, Table 1)
  - Violations of the UN Global Compact Principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises (PAI 10, Table 1). On an ongoing basis, the investment universe is scanned for controversial behavior in relation to the aforementioned principles and guidelines.
  - In addition, based on a yearly review of Robeco's performance on all mandatory and selected voluntary indicators, holdings of the Sub-fund that cause adverse impact might be selected for engagement.

For investments in governments, the following applies.

Pre-investment, the following principal adverse impacts on sustainability factors are considered.

As part of Country Sustainability ranking, used for the fundamental analysis of bonds, the following PAIs are considered:

- Table 1, PAI 15 (GHG intensity)
- Table 1, PAI 16 (Investee countries subject to social violations)

Post-investment, the following principal adverse impacts on sustainability factors are taken into account:

- Via Robeco's entity engagement program, PAI 15 (GHG intensity, Table 1) is considered.

More information is available via Robeco's Principal Adverse Impact Statement, published on Robeco's website. The Sub-fund will periodically report how it has considered the principal adverse impacts of its investments in the Company's annual report, which will be made available each year on or before 30 April at the Sub-fund page highlighted in final section of this document.

☐ No

**The investment strategy guides investment decisions based on factors such as investment objectives and risk tolerance.**

## What investment strategy does this financial product follow?

Robeco QI Long/Short Dynamic Duration is an actively managed fund that invests mainly in bonds and similar fixed income securities with a short duration and takes active positive or negative duration (interest-rate sensitivity) positions. The duration positioning of the fund is fully based on a quantitative model. The strategy integrates sustainability indicators on a continuous basis as part of the bond selection process. Amongst others, the Sub-fund applies norms-based and activity-based exclusions, Robeco's good governance policy and considers Principal Adverse Impacts in the investment process.

### ● **What are the binding elements of the investment strategy used to select the investments to attain each of the environmental or social characteristics promoted by this financial product?**

The Sub-fund has the following binding elements to attain the E/S characteristics for the bonds other than sovereign bonds:

1. The Sub-fund's portfolio complies with Robeco's Exclusion Policy (<https://www.robeco.com/docm/docu-exclusion-policy.pdf>) that is based on exclusion criteria that Robeco believes are detrimental to society and incompatible with sustainable investment strategies. This means that the Sub-fund has 0% exposure to excluded securities, taking into account a grace period. Information with regards to the effect of the exclusions on the Sub-fund's universe can be found at <https://www.robeco.com/docm/docu-exclusion-list.pdf>.
2. The Sub-fund scrutinizes investment in companies that are in breach of the ILO standards, UNGPs, UNGC or OECD Guidelines for Multinational Enterprises. If a company in the portfolio breaches one of the international guidelines during the investment period, the company will become part of the Enhanced Engagement program.
3. Investments with an elevated sustainability risk are defined by Robeco as companies with an ESG Risk Rating of 40 and higher. The Sub-fund is limited to a maximum exposure of 3% to investments with an elevated sustainability risk, based on the market weight in the portfolio taking into account regional differences and benchmark. Each investment with an ESG Risk rating of higher than 40 requires separate approval by a dedicated committee of SI specialists, compliance and risk management that oversees the bottom-up sustainability analysis.

The Sub-fund has the following binding elements to attain the E/S characteristics for the sovereign bonds:

1. The Sub-fund's portfolio complies with Robeco's Exclusion Policy (<https://www.robeco.com/docm/docu-exclusion-policy.pdf>), based on exclusion criteria that Robeco believes are detrimental to society and incompatible with sustainable investment strategies. This means that the Sub-fund has 0% exposure to excluded securities, taking into account a grace period. Information with regards to the effect of the exclusions on the Sub-fund's universe can be found at <https://www.robeco.com/docm/docu-exclusion-list.pdf>.
2. The Sub-fund's investments have a minimum average score of 6 on the Country Sustainability Ranking.
3. The Sub-fund excludes sovereign bonds issued by the bottom 15% of the WGI Control of Corruption ranking.

### ● **What is the committed minimum rate to reduce the scope of the investments considered prior to the application of that investment strategy?**

The Sub-Fund does not commit to a minimum rate to reduce the scope of investments prior to the application of the investment strategy.

### ● **What is the policy to assess good governance practices of the investee companies?**

Robeco has a Good Governance policy to assess governance practices of companies. The policy describes how Robeco determines if and when a company does not follow good governance

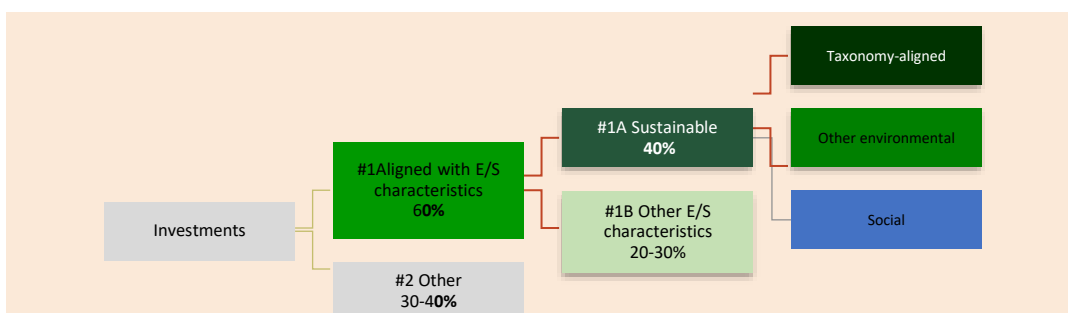

**Good governance practices include sound management structures, employee relations, remuneration of staff and tax compliance.**

practices and is therefore excluded from the initial investment universe for Article 8 and 9 products. Robeco's Good Governance policy applies to the Sub-fund and tests on a set of governance criteria that reflect widely recognized industry-established norms and include topics as employee relations, management structure, tax compliance and remuneration. A link to the good governance test is made available in the final section of this document.

## What is the asset allocation planned for this financial product?

At least 60% of the investments are aligned with the E/S characteristics of the Sub-fund. The Sub-fund plans to make a minimum of 40% sustainable investments, measured by positive scores via Robeco's SDG Framework. The investments in the category Other, estimated between 30-40%, are mostly in cash and cash equivalents. The planned asset allocation is monitored continuously, and evaluated on a yearly basis.

**#1 Aligned with E/S characteristics** includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

**#2 Other** includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers sustainable investments with environmental or social objectives.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

### How does the use of derivatives attain the environmental or social characteristics promoted by the financial product?

The Sub-fund does not make use of derivatives to attain the environmental or social characteristics promoted by the financial product. The Sub-fund may make use of derivatives for both hedging, liquidity and efficient portfolio management as well as investment purposes in the global bond, money market, interest rates and currency markets. In case the Sub-fund uses derivatives, the underlying shall comply with the investment policy of The Sub-fund. Where relevant, minimum environmental or social safeguards are taken into account.

## To what minimum extent are sustainable investments with an environmental objective aligned with the EU Taxonomy?

0%. The Sub-fund does not intend to make Taxonomy-aligned investments. It cannot be excluded that among the Sub-fund's holdings certain investments are Taxonomy aligned. The Sub-fund will report on Taxonomy-aligned investment in the periodic disclosures, based on turnover. In the future, once data-availability in relation to the EU Taxonomy will improve, Robeco might consider setting a target based on turnover or CAPEX. Robeco currently relies on third-party data from Sustainalytics in relation to the EU

**Asset allocation** describes the share of investments in specific assets.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy, including data in relation to companies that do not disclose on the EU Taxonomy alignment of their activities. EU Taxonomy-alignment data is not yet subject to a review by third parties. The Sub-fund makes investments in equities and bonds and therefore it does not have sovereign exposures. At this moment, the expected level of alignment with and without sovereign bonds is the same.

● **Does the financial product invest in fossil gas and/or nuclear energy related activities that comply with the EU Taxonomy<sup>3</sup>?**

☐ Yes:

☐ In fossil gas

☐ In nuclear energy

☒ No

*The two graphs below show in green the minimum percentage of investments that are aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

\* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

● **What is the minimum share of investments in transitional and enabling activities?**

0%

**What is the minimum share of sustainable investments with an environmental objective that are not aligned with the EU Taxonomy?**

The Sub-fund intends to make sustainable investments, measured as positive scores via Robeco's SDG Framework. Among those could be investments with environmental objectives that do not qualify as Taxonomy-aligned. The environmental objectives of the Sub-fund are attained by investing in companies that score positively on SDG 12 (Responsible consumption and production), SDG 13 (Climate action), SDG 14 (Life below water), and SDG 15 (Life on land) in Robeco's SDG Framework. While the sum of sustainable investments with an environmental objective and socially sustainable investments always adds up to the Sub-fund's minimum proportion of 40% sustainable investments, we do not commit to a minimum share

<sup>3</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

of sustainable investments with an environmental objective because the Sub-fund's investment strategy does not have a specific environmental investment objective. Therefore, the minimum share of sustainable investments with an environmental objective is 0%.

### What is the minimum share of socially sustainable investments?

The Sub-fund intends to make sustainable investments, measured as positive scores via Robeco's SDG Framework. Among those could be investments with social objectives. The social objectives of the Sub-fund are attained by investing in companies that score positively on SDG 1 (No poverty), SDG 2 (Zero hunger), SDG 3 (Good health and well-being), SDG 4 (Quality education), SDG 5 (Gender equality), SDG 6 (Clean water and sanitation), SDG 7 (Affordable and clean energy), SDG 8 (Decent work and economic growth), SDG 9 (Industry, innovation and infrastructure), SDG 10 (Reduced inequalities), SDG 11 (Sustainable cities and communities), SDG 16 (Peace, justice and strong institutions) and SDG 17 (Partnerships for the goals), in Robeco's SDG Framework. While the sum of socially sustainable investments and sustainable investments with an environmental objective always adds up to the Sub-fund's minimum proportion of 40% sustainable investments, we do not commit to a minimum share of socially sustainable investments because the Sub-fund's investment strategy does not have a specific socially sustainable investment objective. Therefore, the minimum share of socially sustainable investments is 0%.

### What investments are included under "#2 Other", what is their purpose and are there any minimum environmental or social safeguards?

The type of instruments included under "#2 Other" and their purpose are outlined in Annex I of this Prospectus under the header 'Financial instruments and investment restrictions'. Amongst others, the use of cash, cash equivalents and derivatives is included under "#2 Other". The Sub-fund may make use of derivatives for hedging, liquidity and efficient portfolio management as well as investment purposes (in line with the investment policy). Where relevant, minimum environmental or social safeguards apply to the underlying securities.

### Is a specific index designated as a reference benchmark to determine whether this financial product is aligned with the environmental and/or social characteristics that it promotes?

Not applicable.

- **How is the reference benchmark continuously aligned with each of the environmental or social characteristics promoted by the financial product?**  
Not applicable.
- **How is the alignment of the investment strategy with the methodology of the index ensured on a continuous basis?**  
Not applicable.
- **How does the designated index differ from a relevant broad market index?**  
Not applicable.
- **Where can the methodology used for the calculation of the designated index be found?**  
Not applicable.

**Reference benchmarks** are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

### Where can I find more product specific information online?
